

CARE INSTRUCTIONS

Melteca® quality laminated panels are versatile pre-decorated panels with a durable melamine surface on both sides. For interior use only, Melteca® is available in a range of decors and finishes, on a choice of substrates, sizes and thicknesses. These care instructions apply to Melteca® PVC, ABS and Laser edge tape. Please refer to the Melteca® availability guide for more information.

Never use any of the following abrasive cleaners: Jif, Ajax, Chemico, Brasso, oven cleaners, neat Janola, wire wool, scourer pads, sandpaper.

CLEANING

- A soft cloth should always be used, apply cleaning products to the cloth rather than directly onto the product.
- Wash down with warm water with a small amount of detergent. For best results use streak free glass cleaner with a soft cloth.

- For textured finishes (pearl, organic and puregrain) the periodic use of a soft brush may be necessary for the removal of dirt build-ups and residues left by some spray on cleaners.

SPILLAGES

- Hair rinse, Janola (neat) Harpic, oven cleaners – wash with hot soapy water, then wipe dry.
- Fabric dye – wash with cold water, then wipe dry. Then apply methylated spirits and wipe dry.
- Battery acid, hydrogen peroxide, glue hardeners – wash with cold water then wipe dry.
- Hair dye – wash with methylated spirits then wipe dry.
- Leather dye – wash with methylated spirits then wipe dry. Follow with mineral turpentine, wash and wipe dry.

STAIN AND MARK REMOVAL

- Stubborn marks or stains – apply Handy Andy or diluted Janola (one part to three parts water), then wipe down with a warm damp cloth.
- Smearing, finger marks, marking from cold or hot dishes, stickiness – apply one or two applications of acetone (available at pharmacies) and wipe over with a dry cloth.

- Newsprint – use methylated spirits or mineral turpentine
- Rust – use vinegar or lemon juice
- Pencil – use water and a damp cloth
- Felt pen or dry marker - use methylated spirits or acetone
- Paint – use acetone or Duco Lacquer thinners (from a paint shop)
- Glue – contact type – use Ados Solvent N (from a paint shop)

Once again with any of the above use streak free glass cleaner to remove any residues.

HOW TO SELECT

Choose your favourite Melteca® colour and then select your ideal finish from:

- Naturale
- Pearl
- Satin
- Organic
- Puregrain
- Hi-Gloss

Some finishes are not recommended for certain Melteca® colours. Please check with your kitchen designer/ manufacturer before making your final selection.
